IMPACT: State & Local

Summary of Legislation: This bill prohibits the state, a juvenile court, or a sheriff from providing custody or confinement of an offender in a penal facility operated by an entity other than a city, county, state, or federal authority after June 30, 2005. It requires the Department of Correction (DOC) to report annually to the General Assembly concerning the steps the DOC is taking to implement this requirement. It authorizes the State Office Building Commission to provide the necessary facilities before July 1, 2005.

Effective Date: July 1, 2002.

Explanation of State Expenditures: The Department of Correction contracts with the Corrections Corporation of America for bed space for 973 offenders as of September 2001. Of these offenders, 588 were located in the Otter Creek Correctional Facility in Kentucky, and 385 were located in the Marion County Jail II. The added costs for the state to house these offenders in state-owned facilities will depend on whether these offenders can live in dormitories or in individual cells. The cost for individual cells will be around \$58,000, while the costs for dormitories will be around \$40,000 per offender. Consequently, the cost to house these offenders in new facilities will range between \$38 M and \$57 M. Besides new facilities, other costs will include new guards and staff to accommodate these offenders.

Explanation of State Revenues:

Explanation of Local Expenditures: County sheriffs would incur additional expenses if they are no longer able to contract with outside vendors. The additional cost will depend on the number of sheriffs who currently contract for jail space. The sheriff in Marion County also currently contracts out for bed space with the Corrections Corporation of America.

Explanation of Local Revenues:

State Agencies Affected: Department of Correction, State Office Building Commission, State Budget Agency.

Local Agencies Affected: County sheriffs.
